DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-33 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Jurkevich et al. (US 5,164,938).

Jurkevich et al. discloses a system for transmitting information during a call connection between EFPS 41 and EFPS 43 in Fig. 3 comprising the following features: dynamically allocating bandwidth for each traffic component types, such as video, voice, data. See Abstract, columns 3-8.

Response to Arguments

3. Applicant's arguments filed 5/24/02 have been fully considered but they are not persuasive.

On pages 10-12, Applicant argues that nowhere in Jurkevich et al. discloses a multimedia call application program that effectuates quality of service guaranty, and allocate a reserved bandwidth to an individual media stream of the call. Examiner respectfully disagrees with this argument. Jurkevich et al. discloses a system for transmitting information during a multimedia call connection between EFPS 41 and EFPS 43 in Fig. 3; wherein the system is for

dynamically allocating bandwidth for each traffic component types, such as video, voice and data. Thus, it effectuates quality of service for the multimedia call because it allows maximum bandwidth sharing and allocation, as a percentage of total link capacity, without increasing the risks of call blocking and/or unacceptable degradation of service quality. See column 15, lines 6-25, column 28, lines 34-49.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
